Circle of Friends	Karen Cummings	cummingska@lisd.net
	Shawnda Laroque	laroques@lisd.net
	Dedrick Buckels	buckelsd@lisd.net

Circle of Friends is a school sponsored club composed of students who desire to initiate and develop friendships with peers who have special needs. These students look for opportunities to include their friends in activities during and after school, and on the week-ends, and to make a difference in their lives. The name *circle of Friends* comes from the concept that everyone has three circles of people surrounding them. Each circle represents a different type of relationship. The first and closest circle represents family members. The second/middle circle is made up of friends and peers. The third circle is made up of professionals in the community who provide services e.g., teachers, coaches, doctors, ministers etc. young people with special needs sometimes only have two circles (the first and last) of people who touch their lives. The circle of friends was created to fill the gap of the second so that the students with special needs will be surrounded with friends.

The International Thespian Society is the organization that our extra curricular Theatre program belongs to; we are Troupe #6069. We produce two or three plays a year as well as a Fine Arts Department Musical. We participate in the University Interscholastic League's annual One Act Play contest. We strive to produce quality productions with excellent performances and high caliber technical work. We also compete in speech tournaments governed by the Texas Forensics Association in three events: Humorous Interpretation, Dramatic Interpretation, and Duet Acting. The goal of our department is to use Theatre as a tool to teach students leadership, time management, and discipline. We want students who are dynamic, disciplined, friendly, respectful, and appreciative.

Volleyball

Karin Keeney

Hebron Volleyball is about excellence! We are always looking for young ladies who want to strive for perfection on the court as well as in the classroom. Expectations are always HIGH and our young ladies have the best work ethic in the building! Our pace is fast and furious! We work on strength, agility, endurance, power, and SKILLS year round. We were a power house 4A competitor with 4 District Championships, State

Runner Up and a State Championship. We are now working hard to be a power 5A program! Our season is unique in that we start BEFORE school starts. By the time Hebron High School is in session in August we are a month into our season. Dates that are important to the 2008 Freshmen class are as follows:

Wrestling	David Rozanski	rozanskid@lisd.net
*Yearbook (“Talon” Staff)	Jim Thrasher	thrasherj@lisd.net

Yearbook is a class open to students in grades 10-12. Students do everything from plan the book, to taking pictures, to elaborate design, to writing copy. Yearbook is a wonderful activity to have on a college application as it shows students have mastered oral and written communication skills. Students are also afforded out of class learning opportunities with visits to the State Interscholastic League Press Conference Convention and professional businesses.

Desktop Publishing is a class open to students in grades 9-12. Students will receive a Technology credit while mastering the basics of In-Design and Photoshop - two programs that are staples of Desktop Publishing in the professional world. This is also a class that I encourage all students who want to be in yearbook during their respective high school careers to take. We focus on yearbook design and principles.
